Strategic relevance of joint occupational and qualification standards in VET and developments in the SEE region

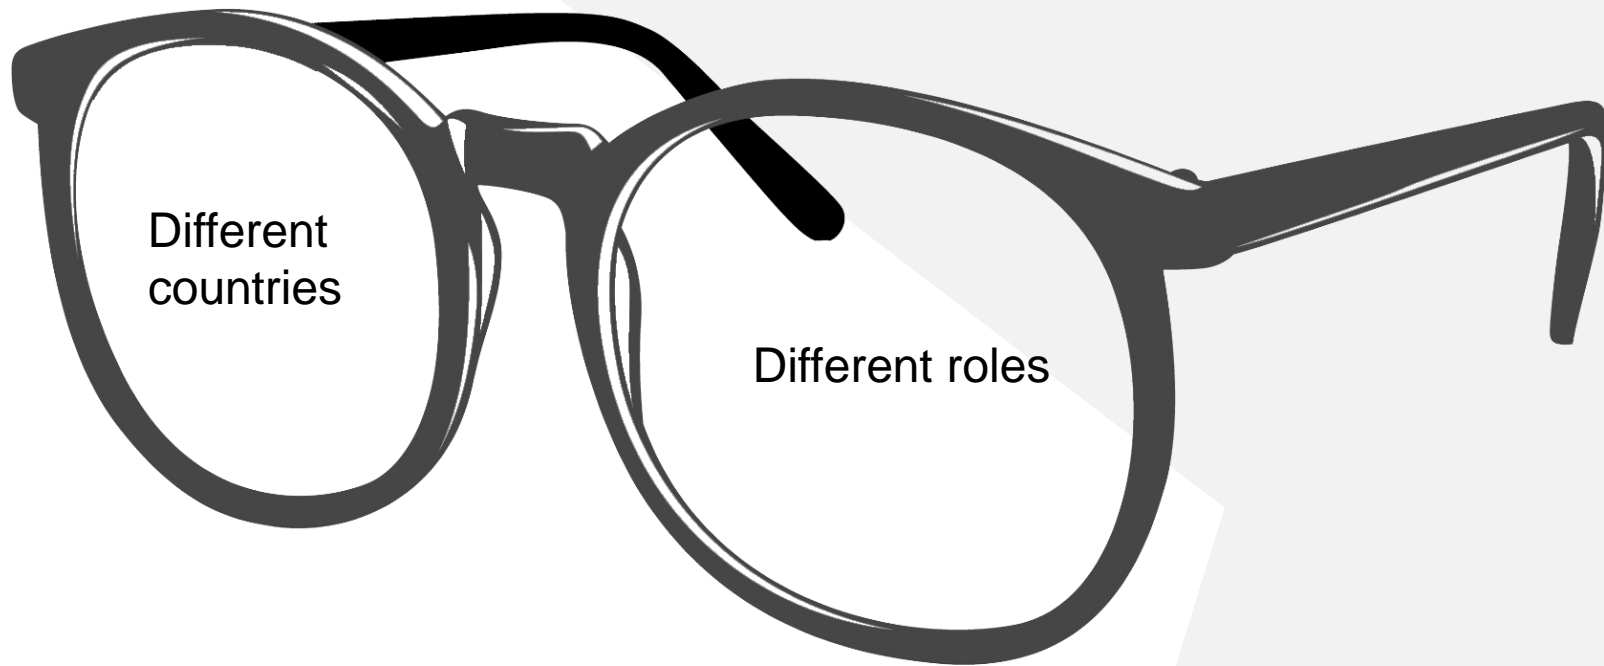

Jolien van Uden

Towards regionally-based standards of occupations | 11 July, 2019 | Belgrade

CONTENT

- Relevance of qualifications and qualification frameworks
- Developments in the region
- Skills and qualifications, two sides of the same coin
- The role and importance of occupational and qualification standards
- From (regional) occupational standards to (regional) qualification standards

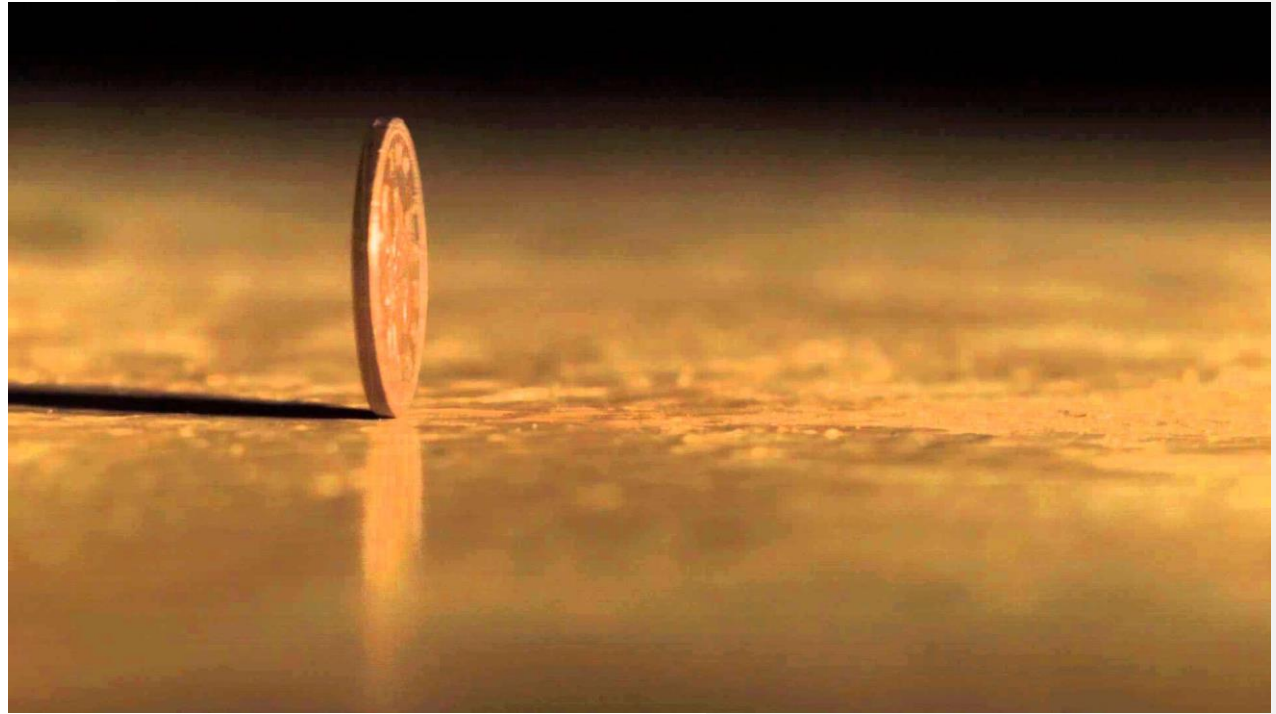

RELEVANCE OF QUALIFICATION FRAMEWORKS AND QUALIFICATIONS

- For learners in terms of access, transfer, progression, mobility and entry into labour market.
- For education in terms of increased communication and coordination between stakeholders
- For the labour market in terms of matching supply and demand
- For the country in terms of competitiveness

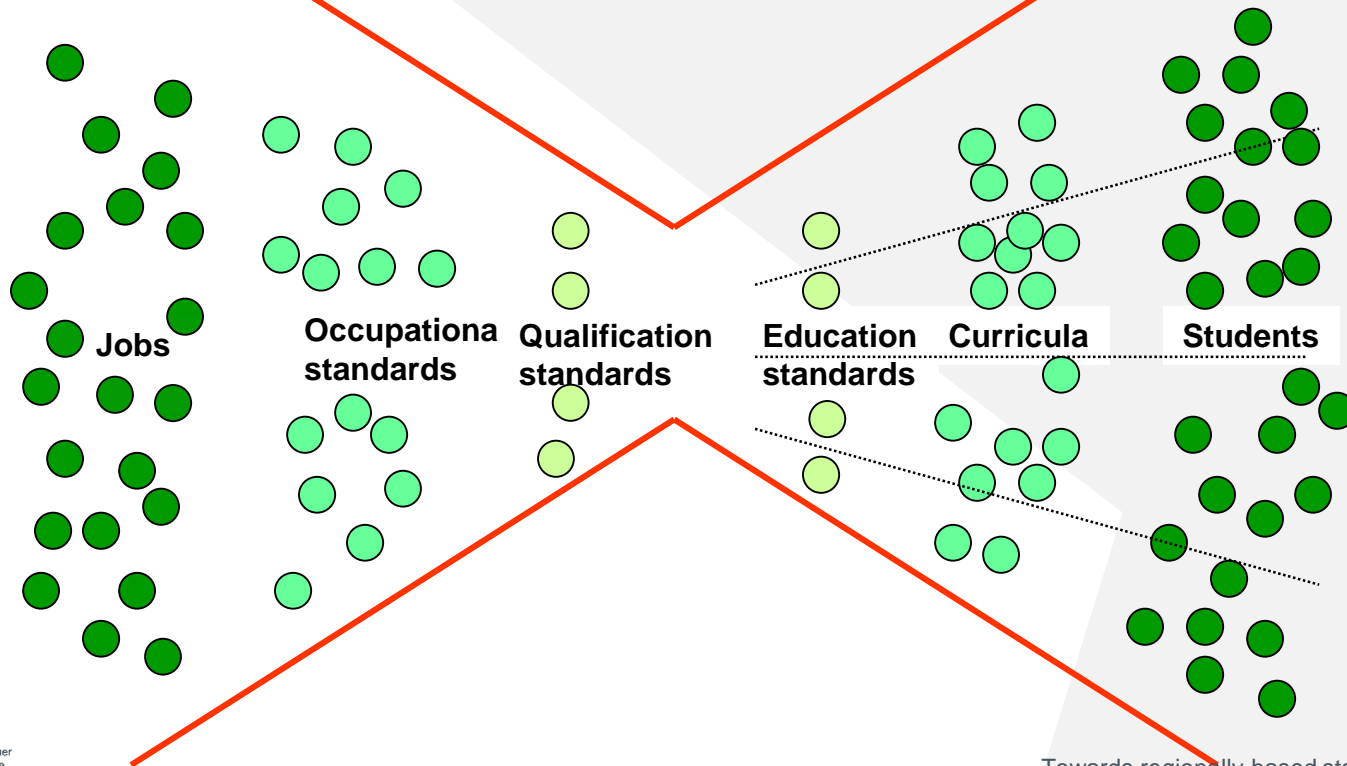

STATE OF PLAY IN THE REGION

- All countries developed qualification frameworks
- Qualifications based on learning outcomes
- The number of qualifications included in the framework differs
- Coordinating and implementing institutions (agencies and ministries)
- Division between the development of OS and QS
- Sector committees/councils/commissions
- Qualification registers in development in most of the countries
